DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks, filed 5/21/08, with respect to the claims have been fully considered and are persuasive. The rejection of claims 8-13 and 17-22 has been withdrawn.

Election/Restrictions

2. Newly submitted claims 23 and 24 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 23 includes "at least one electronic device to be thermally managed within said spray chamber" and "wherein said plurality of valves are positioned near at least two interior corner of said spray chamber to collect coolant." These newly introduced limitations render claims 23 and 24, distinct from originally claimed 8-13 and 17-22.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 23 and 24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Objections

3. Claim 19 is objected to because of the following informalities: in line 4, "Deactivating" should be "deactivating". Appropriate correction is required.

Allowable Subject Matter

4. Claims 8-13 and 17-22 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose determining if a state change is required of any of said valves and executing said state changes if at least two valves are open.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
